

Waste & Recycling One

PRODUCT OVERVIEW

A software solution that standardizes, integrates, simplifies and automates all your waste and recycling processes to create efficiencies throughout the business.

End to End Integration.

ISB Global provides software which allows your business to easily and effectively automatically track, measure, report and analyze your waste and recyclable materials.

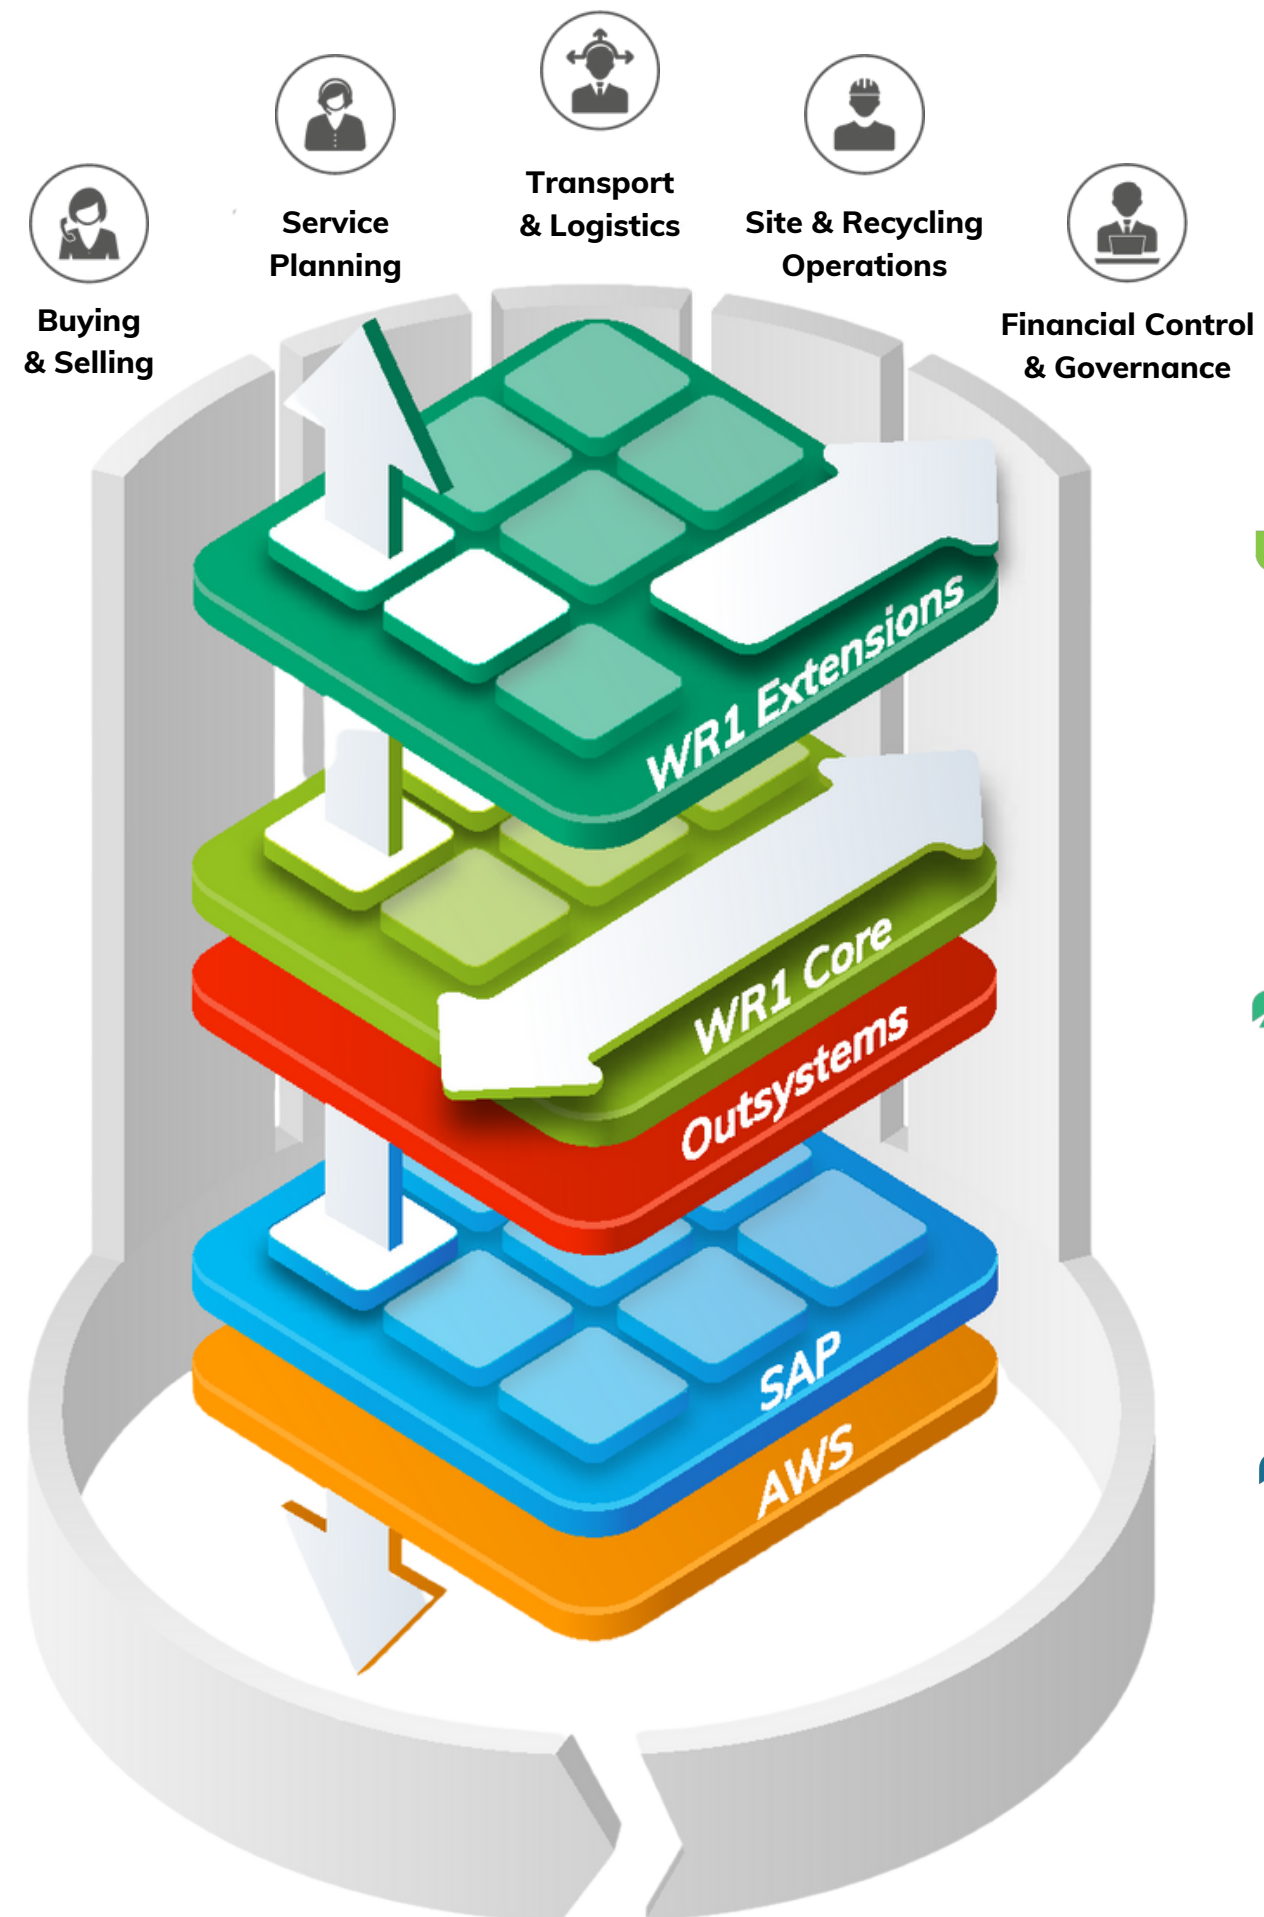

This means we make a significant difference globally in how the world deals with waste and recyclable materials.

Waste & Recycling One is built to encompass all industry functions, to ensure complete coverage.

Integrated business process in a single solution, using the same data for accuracy, compliance and reporting.

Automated tasks, activities, processes and master data control over integrated native mobile and web apps.

Instant control and complete visibility across your entire waste management and recycling operations.

OutSystems Low code development platform, enables new and innovative applications at speed.

SAP ERP for all back office finance and accounting functions. Delivering control, governance, compliance, reporting and analytics.

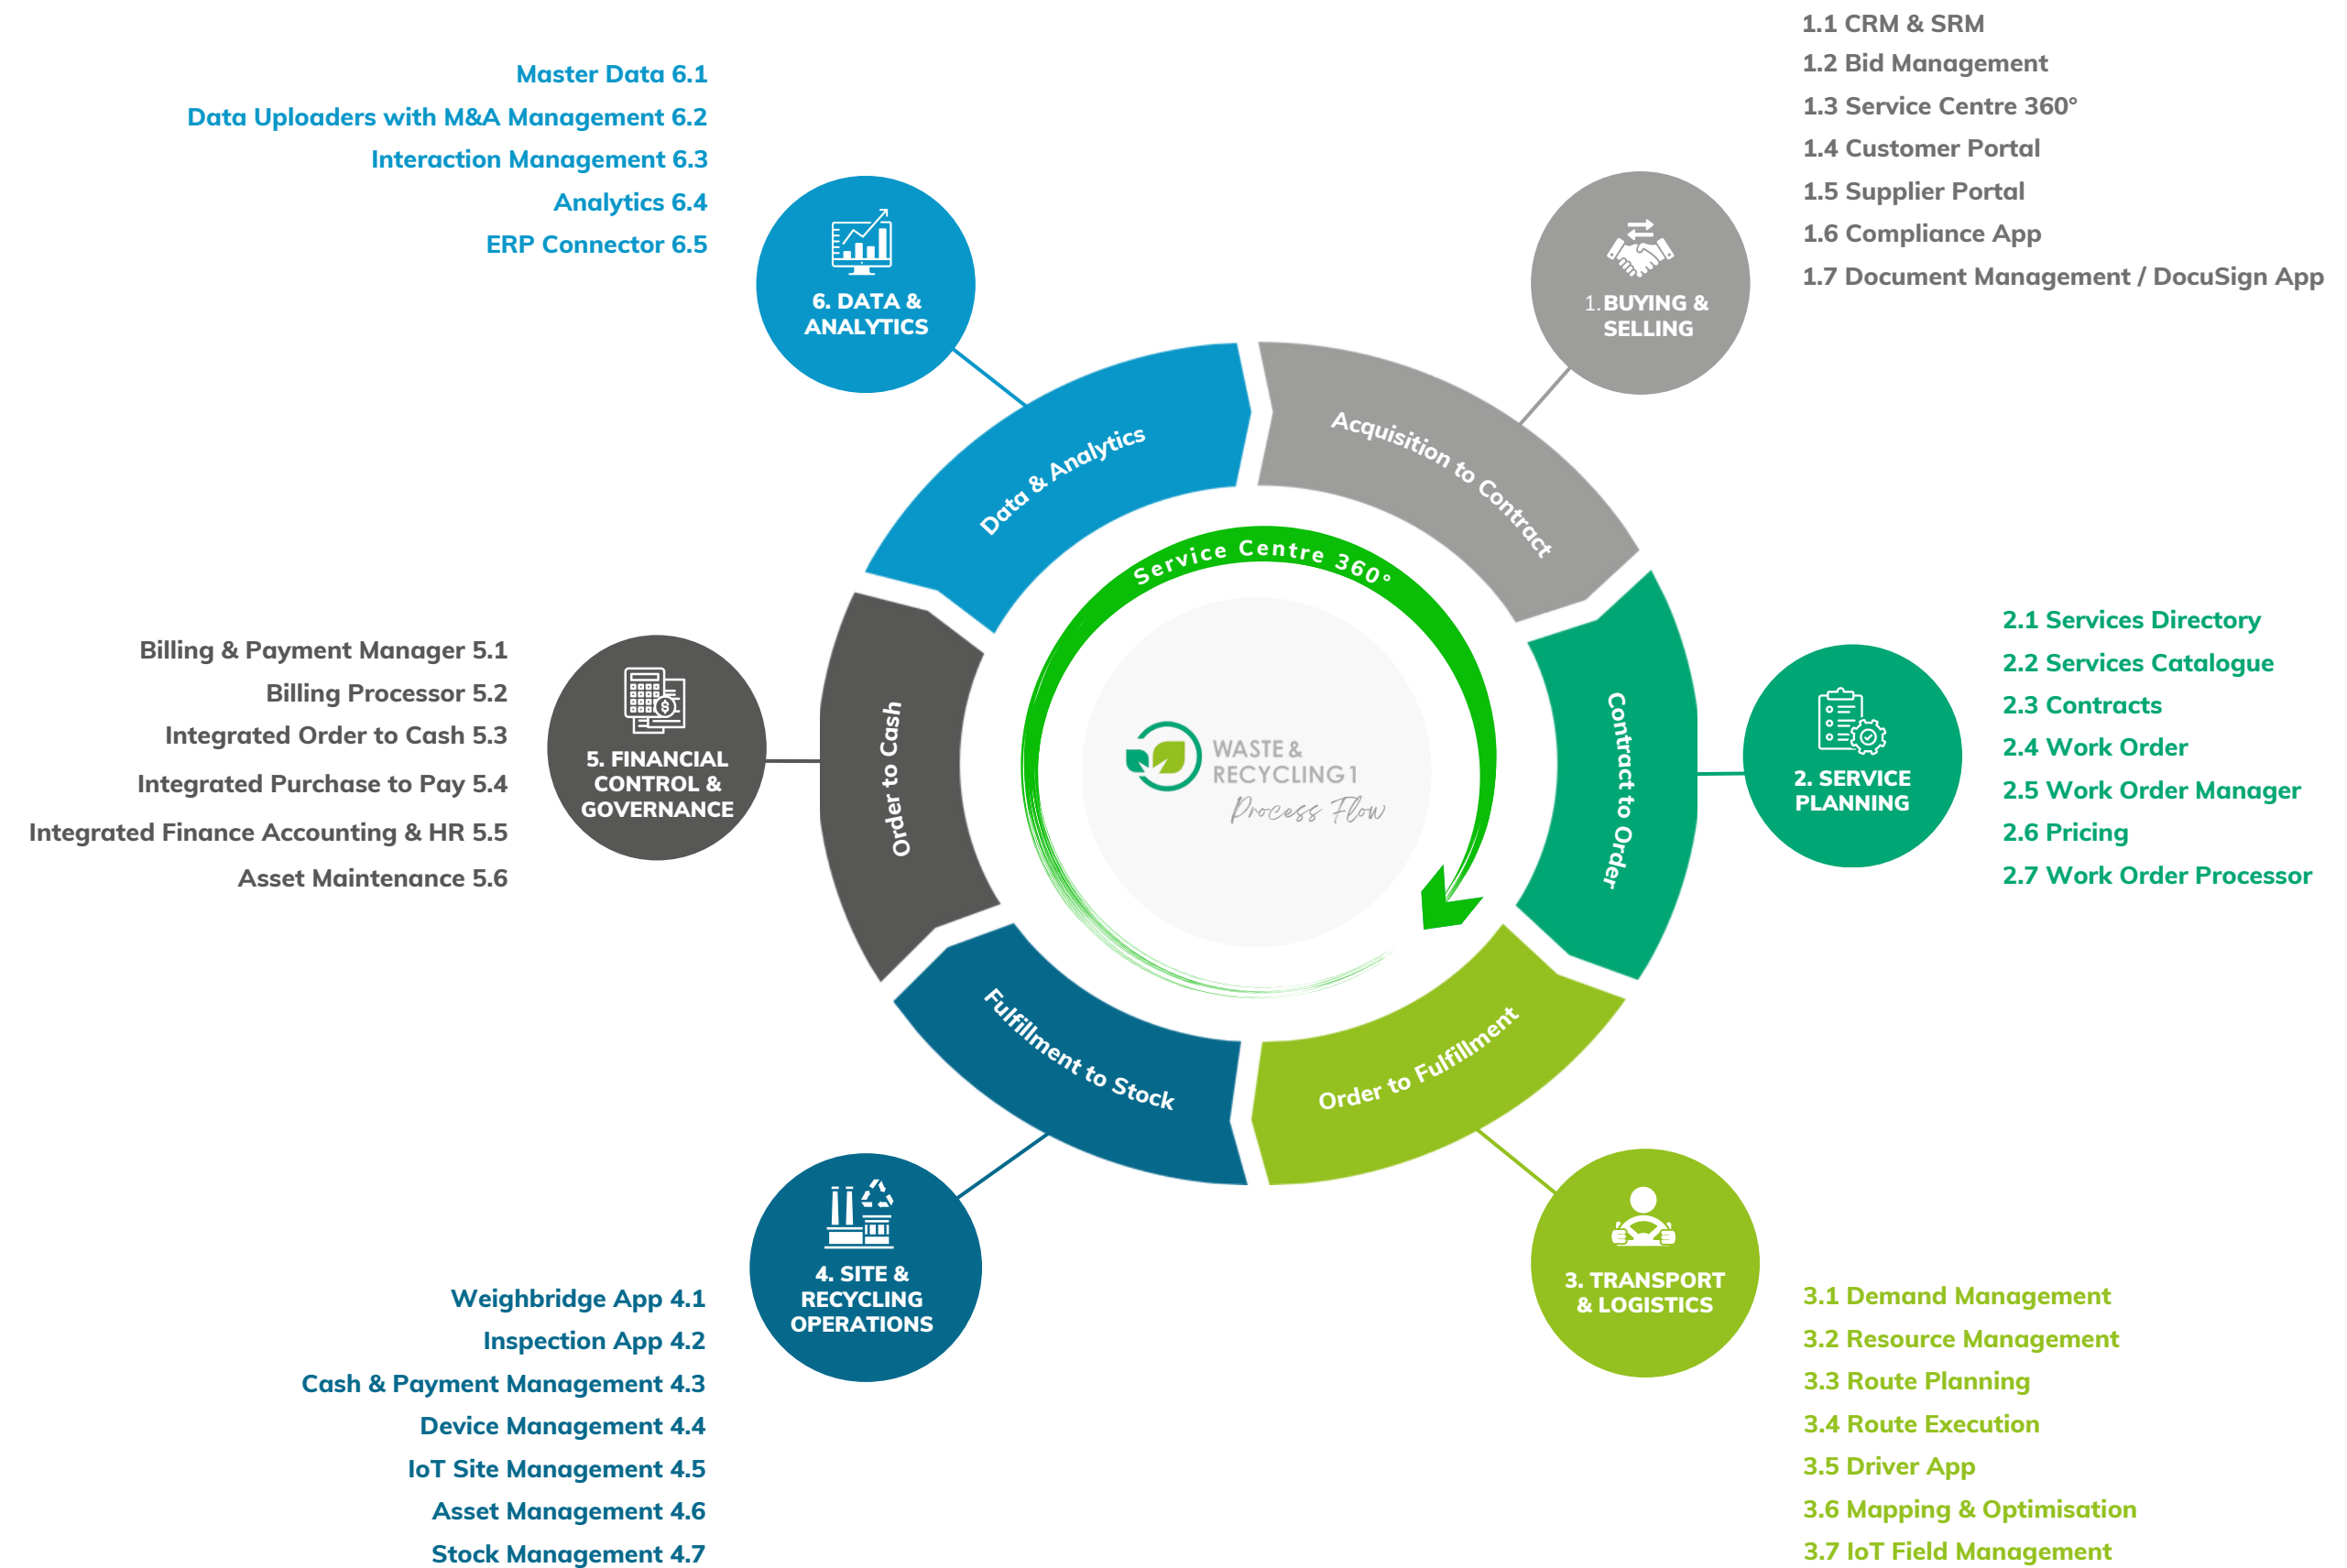

Amazon Web Services (AWS) provides world leading cloud computing and storage services for WR1.

Built for the Industry.

Waste and Recycling One, includes over 1000 business processes, which have been built and deployed on OutSystems low code Platform, fully integrated to SAP.

Waste & Recycling One (WR1) is the worlds most advanced environmental, waste management and recycling software, suitable for small, midsized and large enterprises.

WR1 is fit for purpose and ready for change. It is secure, scalable and with a world class user experience. It enables the digital transformation from the linear economy to the circular economy, driving towards Net Zero.
